

Mobile Roundness Measuring Instrument

RONDCOM ZERO 1

New

Mobile Roundness Measuring Instrument
specialized for cylinder bore

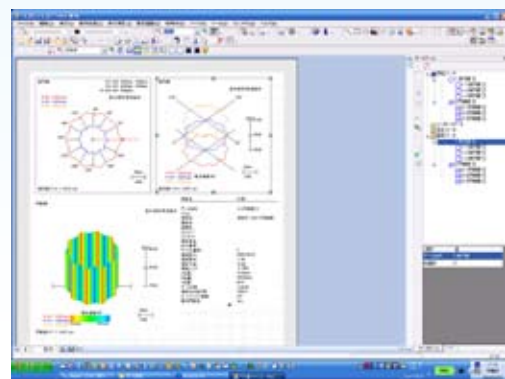

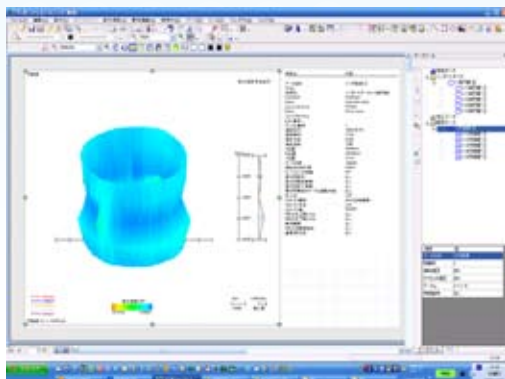

Feature

- Compact and light weight design to able to bring in shop floor
- Quick centering at cylinder bore
- Adapt 25mm diameter difference of workpiece by exchange stylus

Able to operate in the document

New concept of software ACCTee

RONDCOM ZERO 1

■ Specification

- Measuring range : $\phi 70-95\text{mm}$
(25mm diameter difference)
- Stroke:Max 135mm
- Rotation Accuracy : 1 μm
- Straightness Accuracy : 1 $\mu\text{m}/125\text{mm}$
- Parallelism Accuracy : 1.5 $\mu\text{m}/125\text{mm}$
- Weight : 5.8kg

■ System Configuration

Setting stand

RONDCOM ZERO 1 includes following unit

*** Personal computer also come with the system**

Able to calibrate on the setting stand

Controller, Operation box
