

Cylinder Head Automatic Measuring Machine

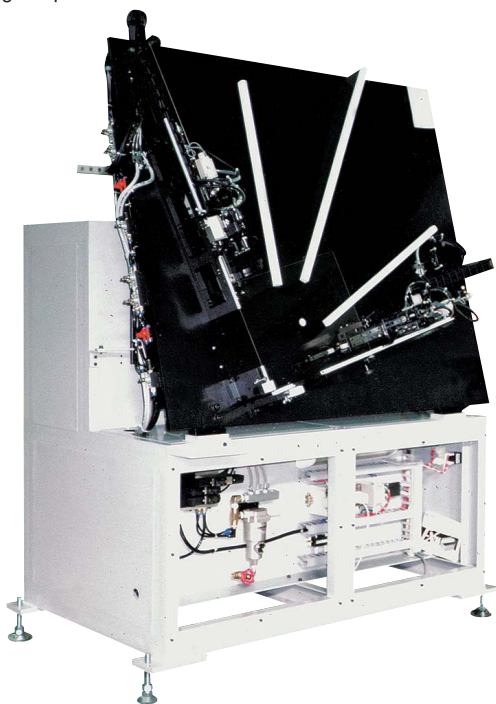

- Measures bore diameter of each cavity in cylinder head, and makes a judgment as OK or NG.

Measuring items: Bore diameter, roundness, taper

Liquid Crystal Glass Width/Thickness/Angle Measuring System

- Measures the width, thickness and squareness of liquid crystal glass plates.

Syringe Outer Tube Inner Diameter Measuring/Sorting Machine

- Automatically measures the inner diameter of syringe outer tubes with air/electric micrometers, and sorts tubes by the rank of measured results.
