ACCRETECH (Tokyo Seimitsu Co., Ltd) establishes
New office in Thailand

Dear Customers,

Tokyo Seimitsu Co., Ltd (“ACCT”) and Carl Zeiss Inc(CZ), (Parties) have contracted General business collaboration related to sales, services, and the other matters globally in 1995. Based on the contract, CZ has been taking care of sales and services of ACCT’s products in South East Asian countries.

Throughout the mutual discussion by the parties in accordance with the renewal of the contract in 2010, the parties have ratified revising the territory coverage as specified below.

Because of the revision of the territory coverage, ACCT (same as in China, Taiwan and Korea market) will be in charge of sales and service of ACCT’s products instead of CZ in South East Asian countries as well, effective from October 1st 2010.

But CZ will continue to be in charge of its sales and services for the CZ’s products same as past. However CZ will remain as contact party in South East Asia.

We are pleased to announce our sincere customers that ACCT will be fully responsible for the service of ACCT’s products (ACCT’s products in the customers facilities are included.) instead of CZ in South East Asian countries.

CZ will be responsible for a service of CZ products as usual without revision, even sold by ACCT in the past. We are doing best efforts to make bridge function such as transferring information etc for better communication if necessary.

Please be noted that the contract between the Parties will be remained. The Parties keep collaboration of the business in future as well.

In order to support our customer timely manner, ACCT will establish new office for sales and services , and primary contact of our agents for South East Asian countries in Bangkok, a capital of Thailand.
