Flex Finger  (patent pending)

Flexible Finger for PULCOM Σ

■ Features

Reduced Setup Time
Evaluations by users indicate this unit reduces setup changing time from three minutes to one minute. This enables users who are reluctant to perform gage setup to use the unit.

Compact and Compatible
The Flex finger only occupies 37% of the space of the flexible Σ, and retro-fitting can be performed to replace the flexible Σ with certain restrictions.

High Precision
This unit can be used with the Super Σ with the same level of precision.

Complete Lineup
Inner diameter, outer diameter and space-saving tool types are available.

Differences in diameter up to 40 mm can be accommodated
## Outer Appearance/Dimension Diagram

### A071427-D002 (Outer diameter type)

- **Product Code:** 4208160 Flex Finger OD (A071427-D002)
- **Product Name:** 4208161 Flex Finger ODT (A071427-D003)
- **Product Code:** 4208162 Flex Finger ID (A071428-D002)
- **Product Name:** 4208163 Flex Finger IDT (A071428-D003)
